Startup Watch: Five you should follow

Jan 18, 2011, 12:03pm EST

Mass High Tech Staff

As part of each week's Startup Report, Mass High Tech highlights five startup companies and their business goals and provides guest access to their company profiles in the New England Tech Directory. With each week's Startup Watch, Mass High Tech will choose the weekly featured companies by soliciting nominations through a poll of 10 startup companies, with links to their respective websites.

Please choose five startups that you would like to know more about for the Jan. 25 edition of Mass High Tech's weekly Startup Report e-mail by visiting www.masshightech.com/startup-watch.

For guest access to today's directory listings, visit the following companies:

[Grembe Apps Inc.](#): Founded in 2009, Marstons Mills-based Grembe Apps is developing mobile apps for children with autism and other developmental disabilities.

[MyPaperlessBills Inc.](#): Medford-based MyPaperlessBills, founded in 2010, is developing tools to increase the adoption of paperless bills through economic incentives for consumers.

[TerraVerdae BioWorks Inc.](#): Founded in 2009, Beverly-based TerraVerdae BioWorks is focused on utilizing methane or methanol derived from biomass, agricultural, industrial or municipal waste for the production of bio-based products.
